

Daily 10-Minute Communication Drill for Backend Developers

Minute 1-2: Explain one backend concept in simple English (JWT, REST API, Microservices).

Minute 3-4: Give a structured status update (Yesterday / Today / Blockers).

Minute 5-6: Practice Problem → Cause → Solution explanation.

Minute 7-8: Rewrite one informal message into professional format.

Minute 9: Speak slowly and record yourself explaining a feature.

Minute 10: Reflect and improve clarity and confidence.
